

TOKYO, Dec. 18, 2019

**Notice Concerning the Acquisition of SBT Certification and
Commitment to the RE100 Initiative
— Strengthening Efforts to Reduce GHG Emissions
in a Bid to Achieve a Decarbonized and Recycling-Oriented Society —**

HAZAMA ANDO CORPORATION (“HAZAMA ANDO” or “the Company”) is endeavoring to protect and coexist harmoniously with the global environment. In carrying out these endeavors, the Company has acquired certification under the Science Based Targets (SBT) Initiative*1, an international undertaking, for its established greenhouse gas (GHG) emissions target to limit global warming to well below 2 degrees Celsius, the target of the Paris Agreement on climate change, in December 2019 (Table 1).

Moreover, HAZAMA ANDO has also joined the RE100 Initiative*2, an international undertaking that is bringing together influential businesses committed to sourcing their electricity needs from renewable energy for their global operations (Table 2).

Looking ahead, the Company will work diligently to procure renewable energy, participate in various renewable energy businesses, and development of the next-generation energy management system etc. to achieve its targets in line with each of the SBT and RE100 initiatives. In this manner, HAZAMA ANDO is dedicated to the steadfast promotion of various initiatives that will ensure that the next generation enjoys the fruits of a rich global environment by realizing a decarbonized and recycling-oriented society.

Table 1: GHG Emission Reduction Targets Certified under the SBT Initiatives

Scope 1 & 2*: GHG Emission Reduction Rate	Scope 3*: GHG Emission Reduction Rate
FY2030: Reduce by 33% (compared with FY2017 levels)	FY2030: Reduce by 22% (compared with FY2017 levels)
* Scope 1: Direct emissions associated with the use of fuel	* Scope 3: Other indirect emissions relating to the supply chain
* Scope 2: Indirect emissions associated with the use of electricity and heat	

Table 2: Renewable Energy Power Usage Target under the RE100 Initiative

Renewable Energy Power Usage Rate Relating to Business Activities	
FY2030: 80%	FY2050: 100%

*1 Science Based Targets (SBT) Initiative

The SBT Initiative was jointly established in 2015 by CDP (formerly the Carbon Disclosure Project), the United Nations Global Compact, the World Resources Institute (WRI) and the World Wildlife Fund (WWF) to encourage firms to set GHG emissions reduction targets based on scientific evidence with the aim of controlling global warming within 2 degrees Celsius above pre-industrial levels.

*2 RE100 Initiative

Led by The Climate Group in partnership with CDP, RE100 is a collaborative initiative bringing together the world's most influential businesses committed to 100% renewable power.
