**Proposal No. 4**      Partial Amendment to Amount and Contents of Performance-Linked Stock Compensation for Board Directors, etc.

1. Reasons for the Proposal and Reasons for Considering the Partial Amendment as Appropriate

The Company obtained approval from the shareholders at the Annual General Meeting of Shareholders for the FYE March 31, 2016 held on June 29, 2016 regarding the introduction of a performance-linked stock compensation plan (hereinafter the “Plan”) for the Company’s Board Directors and Executive Officers (excluding External Board Directors and non-residents in Japan, hereinafter collectively referred to as “Board Directors, etc.”).

Amid rapid changes in the business environment surrounding the Company, the Company requests approval of the partial amendment to the contents of the Plan, in order to clarify the linkage with the “HAZAMA ANDO VISION2030” announced on February 12, 2020 and the “Medium-Term Management Plan (FY3/21-FY3/23)” (hereinafter collectively referred to as the “Medium-Term Management Plan, etc.”) by making the compensation for Board Directors, etc. at a level that has competitive power in the market and by further increasing the ratio of stock compensation as a medium- to long-term incentive, as well as to promote further value sharing with shareholders by encouraging Board Directors, etc. to hold the Company’s stock.

Specifically, the Company proposes that, in addition to the maximum amount of compensation for Board Directors (¥25 million or less per month) approved at the Annual Meeting of Shareholders for the FYE March 31, 2014 held on June 27, 2014, stock compensation be paid to Board Directors, etc. after the partial amendment to the contents of the Plan as described in “2. Details of Major Amendments to the Plan.”

The purpose of the amendment of the Plan is to further clarify the motivation for Board Directors, etc. to achieve the Medium-Term Management Plan, etc., to create more linkage between their compensation and the Company’s business performance, and to further enhance their awareness of contribution to the improvement of the Company’s business performance and increase in corporate value over the medium to long term. Since the stock compensation based on this proposal is necessary and appropriate to achieve such goals, the Company believes that the amendment to the Plan is appropriate. At the Board of Directors meeting held on May 12, 2021, an amendment to the “Policy for Determining Individual Compensation, etc. for Board Directors” based on the details of the amendment to the Plan was resolved, and an outline of the resolution is provided at the end of this proposal.

If Proposal No.2 “Election of Nine (9) Board Directors” is approved as originally proposed, the number of Board Directors subject to the Plan will be six. The Plan also covers Executive Officers who do not concurrently serve as Board Director (24 persons), and together with Board Directors, a total of 30 persons will be subject to the Plan. Although compensation under the Plan includes compensation for Executive Officers, this proposal proposes to revise the amount and contents of the overall compensation under the Plan, taking into account the possibility that these Executive Officers (or those who subsequently become Executive Officers) may be newly appointed as Board Director during the eligible period of the Plan.

The additional acquisition of the Company’s shares as a result of the amendment to the Plan will not cause any dilution of shares, as the shares will be acquired from the stock market.

The specific details of the amendment to the Plan are as described in “2. Details of Major Amendments to the Plan.”

The period beginning from the FYE March 31, 2020 under the Plan before the amendment will end with the FYE March 31, 2021.

As a result of the amendment of the Plan, the Company will amend the maximum amount of trust money to be contributed as compensation for Board Directors, etc. for each eligible period to a total of ¥645 million (a total of ¥430 million for the Initial Eligible Period after Amendment), and will contribute such trust money as compensation for Board Directors, etc., and establish a trust (hereinafter the "Trust") with a trust period of three years with Board Directors, etc. who satisfy the requirements for beneficiaries as beneficiaries (including the extension of the trust period as described below; the same shall apply hereinafter).

The Trust for the Initial Eligible Period after Amendment will be established for the two fiscal years from the FYE March 31, 2022 to the FYE March 31, 2023 by amending the trust currently established under the Plan before the amendment (hereinafter the "Existing Trust") and by contributing additional trust within the upper limit amount of ¥430 million in total. As for the Existing Trust, the Company has already contributed money and acquired the Company's shares within the upper limit amount of the trust money under the Plan before the amendment, but since the Eligible Period before Amendment will be shortened to two fiscal years, the Company will utilize the residual Company's shares (excluding those Company's shares corresponding to the points awarded to Board Directors, etc. as such points by the FYE March 31, 2021 that are not yet delivered, etc.) and residual money in the Existing Trust (hereinafter the "Residual Shares, etc. before Amendment") for the Initial Eligible Period after Amendment, and the total amount of the trust money contributed by the additional trust mentioned above and the Residual Shares, etc. before Amendment shall be within the limit of ¥430 million.

At the expiration of the trust period of the Trust, by modifying the trust agreement and making additional contributions in the Trust in lieu of setting a new Trust, the Trust may be continued. In such a case, the trust period of the Trust will be extended for three years, and the eligible period will be the three fiscal years after the extension of the trust period. The Company will, for each extended trust period, make additional contributions within the limit of ¥645 million in total and continue to grant points to Board Directors, etc. and delivery, etc., of the Company's shares, etc. during the extended trust period. However, in the case that there are Residual Shares, etc. within the trust assets as of the final day of the trust period prior to the extension when making such additional contributions, a total amount of the Residual Shares, etc. and the additionally contributed trust money shall be within the limit of ¥645 million.

Further, if there are Board Directors, etc. in office at the expiration of the trust period who have the possibility of satisfying the requirements for beneficiaries, no points will be granted to such Board Directors, etc. thereafter, but the trust period of the Trust may be extended for a certain period of time until the Company shares, etc. are delivered to the said Board Directors, etc.

#### (3) Calculation method and maximum amount of the Company's shares, etc. to be acquired by Board Directors, etc.

At a certain time each year during the trust period, points are granted to Board Directors, etc. in accordance with their position and the degree of achievements of the financial indicators (indicators determined with reference to the performance indicators set forth in the Company's Medium-Term Management Plan such as consolidated net sales, consolidated ordinary profit, and consolidated return on equity), shareholder value indicators (indicators that promote sharing of interests with the shareholders such as total shareholder return during the eligible period), and non-financial indicators (indicators for fulfilling our social responsibilities and creating value for employees and increasing customer satisfaction set forth in the Company's Medium-Term Management Plan such as reduction in the frequency rate) for the fiscal year ending March 31 of the same year.

At a retirement of each Board Director, etc. (or at the time of death if the said Board Director, etc. passes away), cumulative points (hereinafter the "Number of Cumulative Points") will be calculated, and one share of the Company's shares, etc. will be delivered, etc. for each point in the Number of Cumulative Points. However, in the event that the Company's shares undergo a share split or share consolidation, etc. during the trust period, the number of the Company's shares for each point will be adjusted according to the split ratio or consolidation ratio, etc., of the Company's shares.

The total number of the Company's shares to be acquired by the Trust and the Company's shares to be delivered to Board Directors, etc. by the Trust shall be within the limit of 1.05 million shares in total during three fiscal years (0.35 million shares per fiscal year) (0.54 million shares (0.18 million shares per fiscal year) under the current plan). This maximum number of delivered shares is determined based on the most recent stock price, etc., in consideration of the maximum amount of trust money stated in (2) above. As for the Initial Eligible Period after Amendment, the total number shall be within the limit of 0.70 million shares in total during two fiscal years (0.35 million shares per fiscal year). Since the Eligible Period before Amendment will be shortened to two fiscal years, the maximum number will be 0.36 million shares in total during two fiscal years (0.18 million shares per fiscal year).

- (4) Method and timing of delivery, etc. of the Company's shares, etc. to Board Directors, etc.  
When a Board Director, etc. who satisfies the requirements for beneficiaries retires, the number of the Company's shares, etc. equivalent to the Number of Cumulative Points granted by the time of retirement will be delivered, etc. by following the prescribed procedures for determining beneficiaries.  
At this time, the said Board Director, etc. will receive a delivery of the Company's shares for 50% of the Number of Cumulative Points (shares of less than one trading unit will be rounded down), and concerning the remainder, upon conversion within the Trust, the said Board Director, etc. will receive cash equivalent to the amount after being converted from shares to cash.  
In case of the passing of a Board Director, etc. in the middle of the trust period, in principle, the heir to the said Board Director, etc. receives the cash equivalent to the Company's shares that corresponds to the Number of Cumulative Points after conversion within the Trust.  
In the event of serious inappropriate behavior, such as a dismissal of a Board Director, etc. during their tenure of office due to conduct that constitutes grounds for dismissal, the payment of stock compensation shall be restricted by a resolution of the Board of Directors after deliberation by the Governance Advisory Committee.
- (5) Voting rights for the Company's shares within the Trust  
Concerning the Company's shares within the Trust, in order to ensure objectivity in management, voting rights will not be exercised during the trust period.
- (6) Other contents of the Plan  
Other contents regarding the Plan shall be determined by the Board of Directors each time the Trust is established, the trust agreement is modified, or additional contribution to the Trust is made.

Outline of the “Policy for Determining Individual Compensation, etc. for Board Directors” (resolution at the Board of Directors meeting held on May 12, 2021)

[Basic policy]

The compensation for Board Directors and Executive Officers, excluding External Board Directors, shall consist of cash compensation as the basic compensation and stock compensation as the performance-linked compensation. With respect to the compensation for individual Board Directors and Executive Officers excluding External Board Directors, the basic compensation shall be a fixed monthly amount and shall be determined based on the compensation table for each position at an appropriate level that comprehensively takes into account the Company’s business performance, responsibilities, etc. As for the performance-linked compensation, in order for it to sufficiently function as an incentive for Board Directors and Executive Officers to improve their awareness of their contribution to the improvement of medium- to long-term business performance and enhancement of corporate value, etc., points determined in accordance with the degree of achievements of KPIs will be granted to the eligible persons at a certain time each year, and the Company’s shares will be delivered at the time of retirement of Board Directors and Executive Officers in proportion to the accumulated points. The ratio of the basic compensation and the performance-linked compensation is designated to be approximately 80:20, and 50% of the performance-linked compensation to be delivered in shares at the time of retirement will be delivered in cash after being converted into cash.

The compensation for External Board Directors, who are responsible for supervisory functions, shall consist only of cash compensation (fixed compensation), which is the basic compensation. With regard to each compensation, within the scope of the total amount of compensation resolved at the General Meeting of Shareholders, the Governance Advisory Committee, a body chaired by an independent External Board Director where a majority of the members are independent External Board Directors, deliberates and decides on the basic compensation table, the assessment range, and the assessment method to reflect the Company’s business performance and the evaluation of individual responsible divisions in determining the amount of compensation for Board Directors and Executive Officers, and reports to the Board of Directors. When passing the said resolution, the Governance Advisory Committee shall conduct a multifaceted examination in advance, including an examination of consistency with the Policy for Determining Individual Compensation, etc. for Board Directors, and the Board of Directors shall respect the report of the Governance Advisory Committee and shall make resolutions and decisions after determining that it is in line with the said policy.

[Resolutions by the Board of Directors and the General Meeting of Shareholders regarding basic compensation and performance-linked compensation (performance-linked stock compensation plan)]

With respect to the basic compensation for Board Directors and Executive Officers, including External Board Directors, the compensation table for each position and the individual assessment method will be determined at the Board of Directors meeting held prior to the start of the relevant fiscal year. The maximum amount of the basic compensation for Board Directors was resolved at the Annual General Meeting of Shareholders for the FYE March 31, 2014 held on June 27, 2014 to be within ¥25,000 thousand per month (not including employee salaries). The Board of Directors will decide at a meeting prior to the start of the relevant fiscal year about the benchmark amount, the benchmark point, KPIs, the performance-linked coefficient for each position, and whether to review individual points, etc. for each position in the performance-linked compensation for Board Directors and Executive Officers excluding External Board Directors.

The introduction of the performance-linked stock compensation plan was resolved at the Annual General Meeting of Shareholders for the FYE March 31, 2016 held on June 29, 2016.

[The contents of the performance-linked stock compensation plan]

For the performance-linked compensation, the Company will adopt the Board Incentive Plan Trust for officers’ compensation (hereinafter the “BIP Trust”), and deliver and grant the Company’s shares acquired by the BIP Trust and cash equivalent to the amount after being converted from shares to cash to Board Directors and Executive Officers (hereinafter “Board Directors, etc.”) in accordance with their position and the degree of achievement of performance targets.

Individual points for each position are calculated based on the benchmark point table for each position, which is set by dividing the benchmark amount table for each position, which is set at approximately 20% of total compensation, by the average acquisition price of the Company’s shares acquired by the BIP Trust, and the separately specified performance-linked coefficient table, which fluctuates according to the degree of achievement of KPIs.

The main purpose of KPIs is to function as an appropriate incentive for Board Directors, etc. to achieve the Medium-Term Management Plan and increase corporate value over the medium to long term by using indicators that are consistent with the Medium-Term Management Plan, and KPIs reflect the contribution to stakeholders such as the shareholders, customers, and employees of the Company in the compensation for Board Directors, etc. Specifically, the Company will adopt (1) financial indicators determined with reference to the performance indicators set forth in the Medium-Term Management Plan (consolidated net sales, consolidated ordinary profit, consolidated return on equity), (2) shareholder value indicators that promote sharing of interests with the shareholders (total shareholder return during the eligible period), and (3) non-financial indicators for fulfilling our social responsibilities and creating

value for customers and employees set forth in the Company's Medium-Term Management Plan (reduction in the frequency rate, etc.).

At a certain time each year during the trust period, points will be granted in accordance with the position and the degree of achievement of each KPI for the fiscal year ending March 31 of the same year, and at the time of retirement of a Board Director, etc., cumulative points (hereinafter the "Number of Cumulative Points") will be calculated, and one share of the Company's shares, etc. will be delivered for each point in the Number of Cumulative Points. However, in the event that the Company's shares undergo a share split or share consolidation, etc. during the trust period, the number of the Company's shares for each point will be adjusted according to the split ratio or consolidation ratio, etc., of the Company's shares.

- Benchmark points = Benchmark amount (about 20% of total compensation) / Trust's stock acquisition price (average)
- Individual points = Benchmark points × Performance-linked coefficient

Subject to the approval of the resolution at the Annual General Meeting of Shareholders for the FYE March 31, 2021, the maximum amount of trust money to be contributed by the Company to the BIP Trust shall be a total of ¥645 million for three consecutive fiscal years (however, ¥430 million for two fiscal years as for the Initial Eligible Period after Amendment of the Plan), and the maximum number of the Company's shares to be acquired by Board Directors, etc. shall be 1.05 million shares for three consecutive fiscal years (however, 0.70 million shares for two fiscal years for the Initial Eligible Period after Amendment of the Plan).

In order to ensure the soundness of management, in the event of serious inappropriate behavior, such as a dismissal of a Board Director, etc. during their tenure of office due to conduct that constitutes grounds for dismissal, the payment of stock compensation under the Plan shall be restricted.
